ODP-83-763

31 MAY 1983

MEMORANDUM FOR: Director of Communications

FROM: [REDACTED]

Director of Data Processing

SUBJECT: Reassignment of Digital Equipment Corporation  
Model PDP 11/34 Computer System [REDACTED]

REFERENCE: A. Multiple Addressee Memorandum from  
[REDACTED] P&PG/MS/ODP, dtd 12 Apr 1983,  
Subject: Announcement of the Availability  
of Excess Agency-Owned ADP Equipment  
(ODP-83-533) [REDACTED]

B. Speed Letter for P&PG/MS/ODP, from  
[REDACTED] OC/ED/SIS, dtd 21 Apr 1983,  
Subject: Requirements Statement for the  
Announced Excess System [REDACTED]

1. ODP is pleased to provide your office with formal notification of the transfer of an excess Digital Equipment Corporation Model PDP 11/34 computer system. It is being reassigned in response to the requirements outlined by [REDACTED] of ED/SIS, in Reference B (attachment). This system had an original acquisition cost of \$149,000. It was used by OSWR as part of its Technical Analysis Display System (TADS). [REDACTED]

2. Reference A noted there are potentially eight additional PDP 11/34 systems that may become available in the future. These systems, which are also part of TADS, are scheduled for replacement by new graphics workstations. [REDACTED] has also expressed interest in acquiring these units. However, since the equipment release dates are not firm and other Agency requirements may develop in the interim, ODP must reserve the right to announce the availability of the systems as they are released and to evaluate the resulting reassignment requests. ODP will retain your office's requirements statement for consideration as each additional system becomes available. [REDACTED]

MESSAGE

1. OC-ED is interested in acquiring the Processor, DEC Md1. PDP 11/34, etc. that is being declared excess to ODP's needs. The system can be identified by the following:

TURN-IN NO. 6057-83057-644

ITEM NO. 1, Processor, DEC Md1. PDP 11/34, S/N AG02172, w/options:  
DL11-W Realtime Clock, 128K Memory, KY11-LB Programmer  
Console, and 2 ea. 14960-CA Cabinets.

25X1

2. OC is currently utilizing a DEC 11/24 for developing software, etc., for the Communications Equipment Monitoring System (CEMS). The system is now ready for installation and testing  It will be used to monitor data, test equipment, alarms, and communications lines, etc.

CONFIDENTIAL

25X1 Currently there are plans to purchase another DEC 11/24 to  
25X1 provide additional development capabilities and to support the  
operational CEMS [redacted] Moreover, plans are to  
install CEMS in [redacted] locations in OC's worldwide network.

25X1 Since the DEC 11/34 can be easily substituted for the DEC  
11/24, the excess 11/34 could result in a cost saving. Also, I  
understand that more DEC 11/34's may be made available at a later  
date. If so, these processors could also be used, at a considerable  
savings, to implement CEMS throughout the OC network. [redacted]

25X1 3. Request that the necessary action be taken to transfer the  
25X1 referenced equipment to OC-ED/NSR. For additional details - shipping,  
25X1 etc. - please contact [redacted] OC-ED/NSB, extension [redacted]  
[redacted]
